

## Miami Dental Specialists Dr. Gallardo and Dr. Lamas Now Offer LANAP

### *Renowned Periodontists Perform Advanced Treatment for Gum Disease*

Miami, FL ([PRWEB](#)) April 08, 2013 -- Gallardo & Lamas Periodontics and [Implant Dentistry of Miami](#), Florida, are pleased to now offer LANAP, a new groundbreaking treatment for gum disease. This FDA-approved Laser Assisted New Attachment Procedure (LANAP) is the preferred treatment option for periodontal patients today.

The Laser Assisted New Attachment Procedure (LANAP) offers clear benefits over traditional [treatments for gum disease](#). Unlike traditional periodontal disease surgeries that require painful incisions, suturing and multiple follow up sessions, LANAP utilizes an advanced laser technique to comfortably, safely and efficiently restore healthy gum tissue. The procedure begins by using a probing device to locate pocketed areas of soft tissue. The PerioLaser is then applied to clear bacteria and removes the infected gum tissue. Ultrasonic tools help to eliminate any loosened bacteria before the second laser pass is activated to clot the disinfected tissue. The procedure ends with the reattachment of gum tissue to the newly cleaned surface, thus allowing healthy tissue to grow. Patients suffering from gum disease can now appreciate an effective, minimally invasive procedure with a recovery time of less than 24 hours. Furthermore, [LANAP](#) is safe for individuals experiencing common health conditions, such as diabetes or blood clotting issues.

Dr. John Paul Gallardo received his D.D.S. degree from the New York University of Dentistry in 1991. He then earned his C.A.G.S. in Periodontics and Dental Implants from Boston University. [Dr. Gallardo](#) is regarded as an expert and a distinguished advocate in the oral health field. He lectures both nationally and internationally on gum disease and dental related topics.

Dr. William Lamas earned his Doctor of Dental Medicine degree from the University Of Florida College Of Dentistry where he was awarded the American Academy of Periodontology Student Achievement. Dr. Lamas also holds a Master of Science from Baylor College of Dentistry –TAMUS. He belongs to several national dental organizations and is currently a clinical professor of advanced dental programs in South Florida.

Dr. Gallardo and Dr. Lamas are committed to oral health, performing an array of [periodontal surgeries](#) in addition to gum disease treatments. The dental practice also offers denture solutions and single tooth to full replacement implants. Gallardo & Lamas strive to improve patient care by utilizing the most advanced technologies in dental treatments.
