

Pure Ceramic (Metal-Free) Dental Implants Soon Available in Miami

Miami Dental Specialists by Gallardo and Lamas to begin offering patients innovative Zirconium dental implants.

MIAMI, FLA ([PRWEB](#)) February 12, 2016 -- Miami Dental Specialists is excited to bring patients the choice of ceramic, [metal free dental implants](#) to their Miami dental office. Beginning in January, Miami Dental Specialists will offer the non-metal implants as a safe, holistic and hygienic approach to traditional titanium. Miami Dental Specialists are the first office to be chosen by the dental implant manufacturer, Straumann, to bring this cutting-edge technology to Miami.

Non-metal dental implants are not a new concept; they have been used in Europe for years and the material is used in orthopedics. Straumann dental manufacturing, providing products to clinicians in over 70 countries, is now bringing the technology to the United States. Zirconium dental implants are made from a strong ceramic material, and offer several benefits. The non-metal implants are hypoallergenic, sturdy, and aesthetically pleasing.

A one-piece device, Zirconium dental implants require only a single procedure. This makes the placement of non-metal implants less traumatic with a shorter procedure. Patients will note their recovery time is faster and healing is easier than seen with tooth replacement in the past.

Drs. Gallardo and Lamas are an advocate for the option of dental implants for most patients. "Implants are also much more comfortable than dentures and can be brushed and cared for like the natural teeth," the doctors explain. "There are many reasons why you might need a replacement tooth . . . knowing your options will allow you to make the best choice for your situation." Zirconium dental implants will provide a unique, modern option for the patients of Drs. Gallardo and Lamas.

Those interested in additional information on non-metal dental implants should contact Gallardo and Lamas Periodontics. Consultations are complimentary, and can be made by calling 305.447.1447. Located in Miami, Florida, Miami Dental Specialists by Gallardo and Lamas consistently provides patients a safe and trusted environment for all of their specialized dental needs. The practice also offers [at-home whitening systems](#), oral surgery, and [gummy smile correction](#) through lip repositioning.
