

Leading Miami Periodontists Launch Comprehensive Dental Implants Website

Gallardo and Lamas Periodontics and Implant Dentistry reveal their new, comprehensive dental implant website, highlighting the All-on-4 technique.

Miami, FL ([PRWEB](#)) April 14, 2016 -- [John Paul Gallardo, D.D.S., P.A. and William P. Lamas, D.M.D., M.S.](#) are excited to announce the launch of their new website. Dedicated to the art of dental implants, the site focuses on Dr. Gallardo and Dr. Lamas' innovative, pain-free solutions for tooth replacement. Unique to their practice is the chance for patients to get a completely new smile, by one team of dentists, in one day.

The contemporary new website provides a plethora of information on various dental implant procedures. Using responsive web-design for mobile-friendly viewing, the site walks patients through the tooth replacement process. The options detailed include [TeethXpress](#), single and multiple implants, and the innovative All-on-4 procedure.

The [All-on-4](#) is a cutting-edge technique which allows patients to obtain a new set of the upper or lower arch of teeth with four implants. This innovative technique is performed in one single day, by the same dental team, all in the same location. There is no need for painful, costly, and lengthy bone grafting procedures. When patients leave the office, they have a brand new set of teeth.

The revolutionary All-on-4 is a [non-removal dental implant](#), designed to utilize the patient's available bone. Four implants are placed per dental arch, making the procedure easier than traditional multiple teeth supported fixed bridges or partial dentures. All-on-4 implants look and function like natural teeth, without any food restrictions or limitations. The procedure provides strong, durable teeth that are engineered to last a lifetime.

Gallardo and Lamas Periodontics and Implant Dentistry has helped to restore a beautiful, confident smile for thousands of patients. Whether tooth loss is from decay, gum disease or injury, Dr. Gallardo and Dr. Lamas can offer patients a customized, life-changing dental implant experience. Understanding the common fear of discomfort, the Miami practice uses sedation dentistry to ensure a pain-free, peaceful procedure.

Gallardo and Lamas Periodontics and Implant Dentistry have been serving the Miami area since 1994. Dr. John Gallardo and Dr. William Lamas, founders of the practice, specialize in providing periodontics and dental implants in a safe, low-stress environment. Both surgeons are respected authors and lecturers, highlighting emerging trends ranging from gum disease to dental implants. They are ardent educators, providing time and support to the University of Florida College of Dentistry.

Take a few minutes to check out Dr. Gallardo and Dr. Lamas' new website at <http://www.todayusmile.com/>. For additional information on the All-on-4 technique, view their detailed instructional video here. To schedule a consultation with Dr. Gallardo or Dr. Lamas, or to get more information on the dental implant procedures available, contact Miami office at 305.447.1447.
